Symptom: (eg. GERD):

<p>Main Symptoms (What do you experience when your issue is most present active?):</p> <p>What do you think might be making it worse or better?</p> <p><u>Sherlock Holmes Time:</u> You get to study yourself. Track your symptoms. When they are really strong ask yourself , “What might have caused them to be worse today? “ and write it down. When your symptoms are very low ask, “What might have helped them be better today?” and write it down. After 4 to 8 weeks patterns often emerge that can help you feel better more often!</p>							<p>Start Best Day: /10 #d/w Worst Day: /10 #d/w Average Day: /10 #d/w</p> <p>Follow up Best Day: /10 #d/w Worst Day: /10 #d/w Average Day: /10 #d/w</p>
